

Blackboard Learn 9.1

Manitoba Education has plans to upgrade from the current version of Blackboard (WebCT 6.2) to the new interface managed by MERLIN. You will have the chance to see a demonstration of the new Learning Management System (LMS) interface. It has a Web 2.0 look and feel including many new features built in: Wiki tool, drag and drop interface, and integration of mashups like YouTube, Flickr, and Slideshare. The pedagogical focus in this new release is on fostering active and social learning.
